Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: UAA survey occurred in June 2005 and no uses were observed. The stream was extremely shallow at all sites and did not meet the maximum depth or average depth criterion at any of the sites. Because of this, there is not enough evidence to retain the whole body contact designation.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use
